LAND ACKNOWLEDGEMENT

QGEC ACKNOWLEDGES THAT QUEEN'S IS SITUATED ON TRADITIONAL ANISHINAABE AND HAUDENOSAUNEE TERRITORY. WE RECOGNIZE THE ESSENTIAL ROLE OF INDIGENOUS VOICES IN ALL ENERGY DISCUSSIONS.

About QGEC

The Queen's Global Energy Conference (QGEC) is held annually in Kingston, Ontario by students at Queen's University. QGEC aims to educate delegates on the diversity of opportunities, challenges, developments in the energy sector by bringing together a wide variety of industry speakers and representatives.

As the industry undergoes profound shifts driven by new policies and technologies, QGEC remains committed to facilitating an unbiased space for open dialogue that reflects the complexity of the industry.

Our mission is to provide delegates with unique insight by connecting them with experts, leaders, and innovators. Our focus is to showcase the technologies, career paths, and to impart an understanding of how the industry operates. We aim to inspire the next generation of energy professionals.

As global demand rises, fostering discussion has never mattered more.

Your Sponsorship

QGEC values our industry partners and the unique opportunities past sponsors have allowed us to provide for the student body in past conferences. We appreciate your pivotal role in shaping energy education and innovation. Your support enables us to broadly educate our student body on the important topics within the energy sector.

Frequently Asked Questions

What are the benefits being a sponsor?

As a sponsor, you'll engage with students, network with fellow industry leaders, promote your company, and have the opportunity to recruit the next generation of energy talent.

What opportunities for sponsorship are available?

The sponsorship opportunities can be found on Page 4 of the Sponsorship Package. Additional opportunities can be found in Page 5. For individualized requests, please contact our team at qgec@engsoc.queensu.ca.

Who can I contact regarding sponsorship opportunities?

Potential sponsors can contact qgec@engsoc.queensu.ca regarding any inquiries. Our team is dedicated to ensuring that any questions and concerns are addressed.

When and where is the conference taking place?

Queen's University, Kingston, Ontario on Saturday, January 30th, 2027.

Is this conference an engineering-specific event?

No, although many of the delegates will be engineers, students from all faculties will be in attendance. Advertising will be conducted across the university and promotional presentations will be held for different faculties to encourage engagement.

Our Delegates

A thoughtfully designed conference schedule supports engagement between industry members and delegates. Q&A sessions, coffee breaks, breakout tables, meals, and more, which provide many opportunities for open networking and will foster meaningful conversation. The conference is open to students of any faculty, so delegates come from a range of academic and extracurricular backgrounds. This will naturally generate unique dialogue, questions, and learning throughout the conference weekend. QGEC delegates offer refreshing perspectives on complex topics in the energy industry so that all conference attendees, from industry experts to enthusiastic students, leave the weekend inspired.

“QGEC provided a wide range of unfiltered and real-world opinions on all energy sectors. I found it to be very unbiased information which is great for someone like me who wanted to learn more about the energy sector.”

Kendra C.L.
2024 QGEC Delegate

EDII-AS Commitment

QGEC is committed to upholding Queen's University's belief in diversity, equity, inclusion, and respect for all. We aim to create an environment where everyone feels welcome to participate, thrive, and build lasting connections. We believe that these values are essential foundations for driving innovation and progress in the global energy sector.

Equity

QGEC strives to create equitable participation opportunities, ensuring everyone has access to the resources and support they need to thrive at our events. QGEC acknowledges that Queen's is situated on traditional Anishinaabe and Haudenosaunee territory. We recognize the essential role of Indigenous voices in all energy discussions. QGEC is dedicated to providing a respectful and inclusive space where these important conversations can take place.

Diversity

We recognize that diverse perspectives are crucial for tackling the complex challenges of the energy sector. QGEC actively promotes diversity among our speakers, delegates, and attendees, ensuring representation across all backgrounds.

Inclusion and Indigeneity

Inclusivity is at the heart of QGEC. We create a welcoming and respectful culture where varying opinions are heard and valued. Our conference is designed to foster an atmosphere where everyone can contribute and learn.

Accessibility

QGEC is committed to making our conference physically and intellectually accessible to all participants. Our goal is to remove barriers to participation and ensure that everyone can engage with the conference.

Sustainability

At QGEC, we embrace eco-friendly practices and sustainability in the global energy industry. We listen to diverse perspectives within the sector, highlighting innovations for sustainable energy resource development.
